FOOD SAFETY

- **Assurance that food will not make damage to the consumer when it is cooked and / or eaten according to its intended purpose**
- **Food safety related to bearing of food borne hazards in food at the point of intake**
- **Food safety hazards can take place at any level of Food chain**

WHY IS ISO 22000 : 2018 ?

- **Acute farming and processing of food**
- **Increase in meals intake outside home**
- **Increase in set up to eat foods**
- **More travelling across the world**
- **Increased number of exotic imported foods**
- **Increasing the count of susceptible people**

Benefits of ISO 22000 : 2018 ?

- **Affects many of the limitations of widely used approaches to food safety control**
- **Inherent to identify all likely, reasonably expected hazards**
- **Confident of accommodating the changes**
- **Help to function or operate resources to the most demanding part of the food operation**
- **Can improve international business by equalizing food**
- **Safety control and by maximizing assurance in food safety**
- **Applicable to whole food chain**
